

REMARKS/ARGUMENTS

The Substitute Specification merely includes typographical or clerical changes and does not include new matter. In particular, the amendment to the title is made to more clearly reflect the subject matter of the instant application. Support for the amendments may be found throughout the specification, claims and drawings as filed.

The amendment to paragraph [0063] is made to properly indicate the range of identity between AK003695 and AK081753. Support for this amendment may be found, for example, in Figure 2B. The amendment to paragraph [0067] merely corrects the respective description of open and closed boxes. Support for this amendment may be found, for example, in Figure 3A. The amendment to paragraph [0077] merely amends the description to more accurately reflect the drawing. Support for this amendment may be found, for example, in figure 5B, paragraph [0076] and paragraph [0255]. The amendment to paragraph [0079] merely corrects a typographical error. Support for this amendment may be found, for example, in Figure 6A. The amendments to paragraphs [0081], [0169], and [0193] correct errors in the Japanese specification. Support for the amendment to paragraph [0081] may be found, for example in paragraph [0256]. Support for the amendment to paragraph [0169], may be found, for example in paragraph [0165], the rest of paragraph [0169], and paragraph [0170]. Support for the amendment to paragraph [0193] may be found, for example, in paragraph [0193]. The amendments to paragraphs [0220] and [0240] merely correct typographical errors, and are obvious to one of ordinary skill in the art. No new matter is added with these amendments.

A Sequence Listing on paper and in computer readable form was prepared in accordance with 37 C.F.R. §§1.821 to 1.825, and is submitted herewith. The Sequence Listing does not include new matter or matter that goes beyond the disclosure of the International Application.

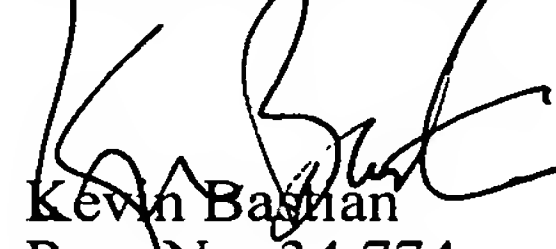

The information contained in the computer readable disk was prepared through the use of the software program "PatentIn" and is identical to that of the paper copy of the Sequence Listing.
